**“Philos (Friendship)”**  
**John 15:13-17, 1 John 4:7-8**

**Sermon Points:**

- 1. Phileos φίλος - Friendship, brotherhood.**
  - **Social capital** - a concept used in sociology and economics to define networks of relationships which are productive towards advancing the goals of individuals and groups.
  - Without Social Capital, people become increasingly isolated and more prone to extremist positions and ideologies.
- 2. The world needs Love that has backbone, substance, and purpose.**
  - “Greater love has no one than this: to lay down one’s life for one’s friends.” (John 15:13-17).
  - Jesus gave his life for you and I: His Friends.
  - Jesus has chosen us to go and bear fruit.
  - “Be devoted to one another in love. Honor one another above yourselves.” (Romans 12:10).
  - “Keep on loving one another as brothers and sisters.” (Hebrew 13:1).
- 3. Jesus has equipped us for works of service (Ephesians 4:11-13)**
